Wheat is the most important War Crop. Until its production is increased still more there will not be enough to remove the danger of a Food Shortage from the Front.

Of twelve most important Food Crops, the entire country gained in planted acreage in 1917 over acreage of 1914—26,124,000 acres.

Of this gain the Southern States increased 14,965,000 acres or 57 per cent of the whole.

Of the individual crops the South gained:

In Wheat—1,976,000 acres, or 56 per cent of the whole.
In Corn—6,582,000 acres, or 41 per cent of the whole.
In Other Food Crops—6,407,000 acres, or 37 per cent of the whole.

Of the Fall wheat acreage of 1918 there was an increase of 3,067,000 acres, of which the South gained 2,332,000 acres, or 76 per cent.

But we can do still better in 1919.

Let's back up Our Boys in France. It is no less our duty to furnish them and our allies food than it is their duty to fight. We are raising this fall an ample cotton crop, to clothe and provide edible fats and oils for our boys. Let us raise a big grain crop next spring to help feed them.

It can be done. The labor requirements are comparatively small, and the acre yields may be increased with good seed, a well prepared seed bed and a liberal application of proper fertilizers.

To Reduce Tax Levy

Action is expected to be taken by the legislative delegation of Pickens county at an early date to have the county tax levy reduced. The levy was reduced last week and a quarter to eight and a

Regulations Regarding Sale of Flour

Under the new regulations promulgated by the food administration regarding the wheat conservation program, effective September 1, which supersedes the "50-50" rule and which permits the use of 80 per cent of wheat flour to 20 per cent of substitutes, the retail dealer dealing in standard wheat flour is required to carry in stock either barley flour, corn meal or corn flour, and with every sale of wheat flour he must sell a combination of some one or more of these in the proportion of one pound of substitutes to each four pounds of wheat flour.

No dealer may force any other substitutes in combination upon the consumer, and these substitutes must conform to the standards fixed by the food administration.

There are some localities where other substitutes are available and which retailers may wish to carry in order to meet this situation. The following flour may be sold in such combination in lieu of the above named flour, if the customer so demands, on a ratio of one pound to each four pounds of wheat

Central Items

There has been a very notable death in South Carolina. I compose the following to its memory:

Follock preached the funeral.
Benet sang the hymn,
Dial dug the grave.
The voters put him in.
Guess who died?

The doctors of Pickens county have offered their services to the government.

A young man supposed to be a deserter from the army went into the home of J. W. Rollins last Thursday evening and stole several things. He was brought to town and tried before Esquire Bridges. He pleaded guilty and was sent to the gang. His case will be investigated by Federal officers.

F. B. Morgan left last Thursday night for Charleston, where he went to the bedside of his brother Carl who was operated on at the Navy hospital for appendicitis. A wire from Mr. Morgan states that his condition is very good. Carl's many friends wish for him a speedy recovery.

We are sorry to report that Mrs. R. Ramseur was on the sick list last week. Miss Christine Clayton, who has been teaching during the summer in Georgia, came home last Saturday.
